

“CUSTOMERS FIRST”

From the products we manufacture to the service we provide, USA Industries strives to put our customers first. We want to know what you thought of our most recent delivery.

Was your order delivered on-time?

Was your sales representative responsive to your requests?

Would you recommend us to a colleague?

Your answers will drive us to be the best company we can be and ensure that each time you come to us with your project needs we are focused on what matters most to you.

We encourage you to take our short survey because we want you to think of USA Industries, Inc. first when you need us most.

The survey link can be found at:

TUBE PLUGS & BOILER TUBE PLUGS

We have the most comprehensive line of tube plugs and boiler plugs available. From our top-of-the-line, Snap It® plugs, to our metal tapered, ranging from our TP1 (1/4" 18 gauge) to our TP22 (3 1/4" 23 gauge), are available in over 20 metals. We also have cork, wood, fiber, rubber tapered and expandable plugs. We can also custom manufacture plugs to your specs!

**WE ARE AVAILABLE
24 HOURS-A-DAY, 7 DAYS-A-
WEEK, 365 DAYS OF THE YEAR!**

Trust USA Industries' commitment to high quality manufactured products, quality assurance, and customer support for all of your project needs!

ORIFICE PLATES

HEAT EXCHANGER, CONDENSER & BOILER TOOLS

Since 1982, USA Industries has manufactured heat exchanger tools & tooling in Houston, TX. Our products are used to "build, repair, replace, test, clean or plug" heat exchangers, condensers, boilers and air-cooled heat exchangers.

Manufactured under our ISO 9001:2015 Quality Assurance Program.

USA Industries manufactures each orifice plate to meet or exceed standards by AGA, ISA, ANSI, ASME and API recommendations.

Stocked plates include 304 & 316 stainless steel in 1/8" and 1/4" thicknesses. Other material and/or thicknesses are available upon request.

We typically bore our plates to the customer's supplied sizing calculation; however, we can provide sizing calculation services to you for an additional fee.

RENTALS AVAILABLE!

ALL NEW PIPING ISOLATION AND TESTING PLUG

GRIPSAFEST

USA Industries introduces our patented GripSafeST plug that significantly improves operator safety by eliminating plug movement and uncontrolled ejection from the moment the plug is inserted into the pipe. The performance of this plug is so much better than other plugs currently in use, we're confident that our GripSafe isolation and testing pipe plug will become the new industry standard.

PIPING PRODUCTS FOR ISOLATION & TESTING

When it comes to industrial isolation and testing products,

Think USA Industries!

We have the largest inventory of Isolation and Hydro Test Paddle Blinds, Blind Flanges, Isolation and Testing Pipe Plugs, Bleed Rings, Rod Out Tools, Pipe Bevelers and much more.
